

# Menu of Services: Workshops for Teachers

The innovative, research-based instructional strategies contained in these workshops are Common Core aligned, target all of the various learning modalities and are excellent for ALL learners, including students who need Intervention. These workshops are focused on helping teachers effectively teach the foundational concepts that many students struggle with so that ALL students experience success and develop math confidence!

**Strategies for using interactive Formative Assessments to guide student learning are covered in ALL Workshops!**

If you would like to bring Lora Kermode to your school or district, visit [www.AlgebraSuccess.com](http://www.AlgebraSuccess.com) or contact us at (562) 430-0040 | [GEMDAS@AlgebraSuccess.com](mailto:GEMDAS@AlgebraSuccess.com).

## Algebra Basics Workshop

**6 hours: \$239 per teacher\***

**\* Includes:**

- ✓ **Order of Operations: GEMDAS® Poster (24 x 36)**

Topics Covered:

- ⇒ How to teach the essential Algebraic concepts using highly effective visual aids & color coding strategies
- ⇒ Interactive Vocabulary Development for essential concepts such as Term, Like Terms, Coefficient, Constant, Degree
- ⇒ Order of Operations: GEMDAS®
- ⇒ Operations with Integers
- ⇒ Distributive Property & Combining Like Terms

## Solving Equations Workshop

**6 hours: \$239 per teacher\***

**\* Includes:**

- ✓ **Solving Linear Equations: 6 Steps to Success Poster (24 x 36)**

Topics Covered:

- ⇒ How to teach solving any equation using highly effective visual aids & color coding strategies
- ⇒ Solving Multi-Step Equations
- ⇒ Solving Inequalities
- ⇒ Solving Literal Equations
- ⇒ Solving Absolute Value Equations

## Factoring Fun Workshop

**6 hours: \$259 per teacher\***

**\* Includes:**

- ✓ **Factoring Fun Poster (24 x 36)**
- ✓ **Divisibility Rules for Success Poster (24 x 36)**

Topics Covered:

- ⇒ How to teach factoring any polynomial using highly effective visual aids & color coding strategies
- ⇒ How to teach factoring trinomials with a proven method that is much more accessible for struggling learners

## Fraction Motions® Workshop

**6 hours: \$259 per teacher\***

**\* Includes:**

- ✓ **Fraction Motions® Poster (24 x 36)**
- ✓ **Divisibility Rules for Success Poster (24 x 36)**

Topics Covered:

- ⇒ How to teach adding, subtracting, multiplying & dividing fractions using highly effective visual aids, color coding strategies AND the interactive Fraction Motions® strategies
- ⇒ Simplifying Fractions
- ⇒ Comparing Fractions

## Foundational Skills Workshop

**6 hours: \$239 per teacher\***

**\* Includes:**

- ✓ **Converting Fractions ⇔ Decimals ⇔ Percents Poster (24x36)**

Topics Covered:

- ⇒ How to teach foundational math skills & concepts using highly effective visual aids & color coding strategies
- ⇒ Multiplication Basic Facts for struggling learners
- ⇒ An Intervention for Multiplying multi-digit numbers
- ⇒ Long Division using Partial Products
- ⇒ Converting Fractions ⇔ Decimals ⇔ Percents

Lora Kermode is the creator of GEMDAS® *Algebra Success*® strategies and posters. While teaching students who historically struggled with math, Lora developed a system for teaching math in a creative, memorable and interactive way that is designed for students to gain a deep understanding of critical concepts while having FUN. She has been the recipient of numerous awards, including **Teacher of the Year** and the prestigious **Governor's Teaching Fellowship**. Lora trains teachers and presents workshops to students and parents both nationally and internationally. She has been featured on multiple morning news shows and CNN Headline News.
