

## ORDER FORM:

### Workshops for Parents & Students / Family Math Nights

Offering Math Workshops for parents & students such as Family Math Nights is a great way to increase parent involvement and help parents overcome their own math phobias. Students are encouraged to attend with their parents so they can learn together! Up to 100 participants may attend each session.

**Cost:** \$550 per workshop

Each workshop is 1.5 hours

*“The parents...found it very valuable!”*

— Steve Mull, Middle School Principal  
Lakeside Union School District, CA

- Fraction Motions® Fun: Adding & Subtracting Fractions**
  - ⇒ Have FUN learning how to add & subtract fractions using highly effective visual aids, colors and the interactive Fractions Motions® strategies!
- Fraction Motions® Fun: Multiplying & Dividing Fractions**
  - ⇒ Have FUN learning how to multiply & divide fractions using highly effective visual aids, colors and the interactive Fractions Motions® strategies!
- Multiplication Mania**
  - ⇒ This workshop is a great intervention for students who struggle with learning the basic multiplication facts. Participants will also discover a method for multiplying multi-digit numbers that is very helpful to visual learners and is more accessible than the traditional algorithm.
- Loving Long Division**
  - ⇒ Participants will learn an alternative to the traditional long division algorithm that helps build conceptual understanding while strengthening multiplication facts.
- Integers Made Simple**
  - ⇒ Discover how to combine (add & subtract), multiply & divide integers using memorable strategies that are excellent for visual and kinesthetic learners.
- Order of Operations: GEMDAS®**
  - ⇒ Participants will learn an innovative way to understand and remember the Order of Operations. The multi-modal strategies contained in this workshop are excellent for all learning styles.
- Algebra Basics: Combining Like Terms**
  - ⇒ Participants will have FUN learning the foundational concepts that are essential to success in Algebra including the parts of an Algebraic Expression and how to Combine Like Terms.
- Solving Equations: 6 Steps to Success**
  - ⇒ Learn how to solve any Multi-Step Linear Equation using proven strategies that are excellent for all learning styles including visual aids, colors, movements and chants!
- Factoring Fun!**
  - ⇒ Discover a unique way to factor trinomials that is much more accessible for all learners.
